

[HookPrinter for special EXE Processes]

You can use following files to HookPrinter for special EXE Processes, such as winword.exe, notepad.exe, etc. running processes in the system.

Related files:

```
-----  
DLL_Injector-32bit.exe  
DLL_Injector-64bit.exe  
hookspl-32bit.dll  
hookspl-64bit.dll  
-----
```

Please by following steps to set HookPrinter for special EXE Processe,

1. Please run a cmd.exe first,
2. Please make sure target application is running, for example, if you want to hook printing application from MS Word, please make sure winword.exe is running, if you want to hook printing application from notepad, please make sure notepad.exe is running, and so on,
3. Please give full control permission to Everyone user account to "C:\Windows\System32\spool\PRINTERS" folder, you can also run following command line with administrator privilege to give full control permission to Everyone user account from command line,

//Please run this command line with administrator privilege

```
cacls.exe "%windir%\system32\spool\PRINTERS" /T /E /C /P Everyone:F
```

4. Run following command line in cmd window to hook target application,

```
DLL_Injector-64bit.exe notepad.exe "%CD%\hookspl-64bit.dll"
```

Please use full path to "hookspl-64bit.dll" file, otherwise, the target application may not able to load "hookspl-64bit.dll" library correctly.

5. You can print from notepad application to any Windows Printer, you will able to see more log information in the log file, the log file will be created at following path,

```
C:\Users\YourName\AppData\Local\Temp\VeryPDF\HookPrinter.log
```

This version of HookPrinter is just for demonstration, we can provide customized development service based on this HookPrinter software, for example, we can add following functions into this HookPrinter software,

- \* Disable printing function for an application.
- \* Show or Hide a Windows Printer by permissions.
- \* Enable or Disable a Windows Printer by permissions.
- \* Redirect print jobs from one printer to another printer.
- \* Modify printing options for print jobs during printing.

- \* Capture print jobs and save them to PDF, text and image files.
- \* Capture print jobs and more information and send them to database center online.
- \* Monitor printing behavior in your company.
- \* Convert color documents to black and white documents to save inks.
- \* Count the number of printed pages per day, per week, per month, etc.
- \* Capture SPL and SHD files and copy them to another folder for backup purpose.
- \* more and more functions.

if you have any question for this software, please feel free to contact us, we are glad to assist you asap.
